# With The Magic From Above, All Dreams Are Possible!

Highlands Jr.  
High  
1999~2000  
Yearbook

## Dreams

When you turn this page,  
You will see,  
The past you loved,  
The present you happen to be

Now take a small look at the future.  
No matter how it seems,  
With the magic from above,  
Your dreams are your dreams

Proceed  
to  
Succeed

all It starts  
right here

Time has past so fast!! It just seems like yesterday when I first came to Highlands Junior High. My best days here have past and soon, I will be leaving this memory. Being the "prez" for this school was one of my greatest honors. Helping out this school planning dates and activities to do was very fun. This year in grade nine has been so exotic, too exotic that I can't explain! I had a blast with the school teams I joined in and the best times with my friends!! I only wish that I had these flashbacks in a scrapbook so I can keep it forever within me! Nevertheless, I hope that the future president and advisors will be as unique as any other from the past, giving the school full of joy and excitement! Powering the ERA Club!!

Abu-adu-beeth,  
Editha Tu

#### Principal's message

This has been another great year at Highlands School. Many of the opportunities available to students are like *"Magic From Above"*.

For a school of our size it is very unusual to have a full complement of school teams, many different clubs and opportunities such as skiing, white water rafting or other fun field trips.

We as a school, have a lot to be thankful for. Everything from young, caring, helpful, understanding, competent teaching staff that donate many extra hours to various student focussed activities, to students that are demonstrating respect, honesty and have a love for participation in a positive way. Our student government, student leadership group and all participants are contributing to make Highlands a positive place to be.

We can't forget the huge support from our Parent Alumni that has many committed parents and relatives working bingos and casinos to help offset the cost of many of the opportunities made available to our students. Our school's Parent Council contributes their time to be a guiding influence as to what direction the school should take. They should be commended for providing that support as well.

So it is like *"Magic From Above"* that Highlands has great students, great staff, great parents and great support, to make it a great school!

## MAGIC FROM

#### Assistant Principal's Message

This year at Highlands has been an exciting one, full of activities and learning both inside and outside the classroom. Personally, it was an opportunity for me to return to a school where I had previously been a teacher. The walls, floors and classrooms were the same, but this year I found a new group of middle level students with whom I could work and learn, and help prepare for the future.

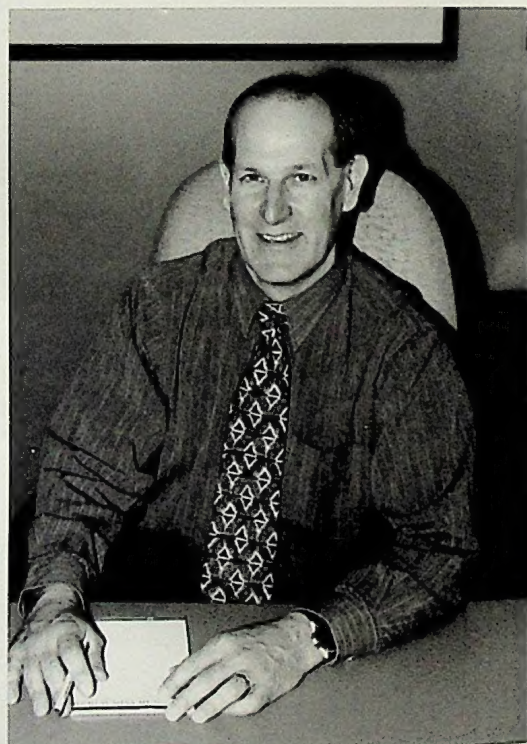

I hope that in the future, you, too, will be able to return to Highlands. I truly believe that when you come back as a former student, you will re-experience the positive feelings you felt when you were here. This is a form of magic- an enchantment made possible through the many experiences shared with others.

The school year of 1999 / 2000 was a memorable one. In addition to the learning done in the classroom, you took part in supporting inter-school sports or ball hockey at noon. You took part in activity days like the Adopt-a-Grandparent, or the Talent Show. Even just hanging out in the lunchroom with friends was a positive shared experience in which you took part.

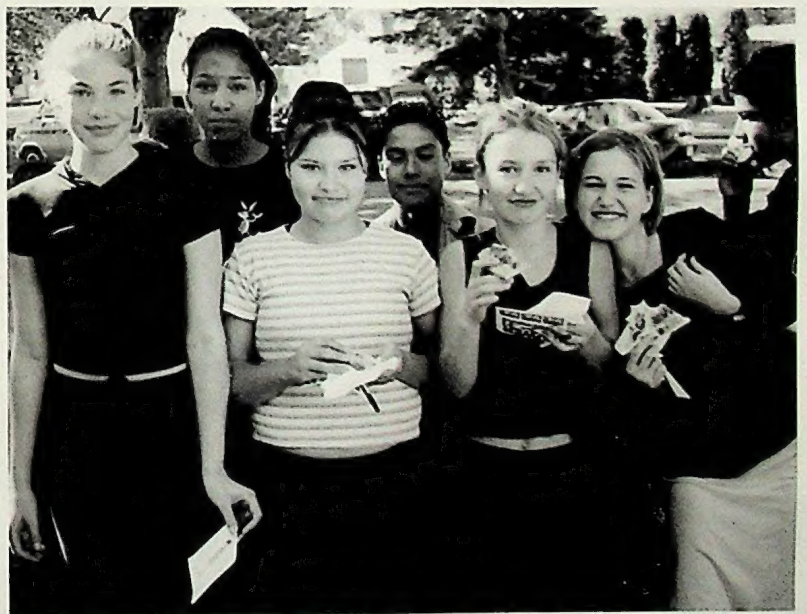

When you reflect on your time spent in Highlands, you will remember the wonderful people you were able to be with on a day basis. This group includes not just your friends, but your teachers, and other adult staff members, whose "magic" helped you become a young adult ready for high school.

I wish you well in all of your future endeavours, wherever they may take you, and hope that this yearbook, and the memories inside, will help you remember some of the magic you have experienced at Highlands.

## Ashleigh's Valedictorian Speech

Good evening to everyone – parents, teachers, and students.  
It's an honour for me to speak to you tonight about the graduating class of 2000, the very first for Highlands junior high in the new millennium.

This is our time in our New Age, and we are thrilled to be a part of it.  
As I look out among all these happy faces, I remember, three short years ago, being huddled under a tree with a few of my friends, waiting nervously for the Highlands bell to ring, signaling the beginning of my junior high experience.

I didn't know what to expect. Butterflies filled my stomach. Yet, it didn't take long. Soon I made new friends and found a groove. The teachers and the rest the staff made us feel welcome.  
The experience at Highlands just wasn't books, marks and homework. It became, for many of us, a way of life, full of opportunities and new experiences. Going to school isn't just about academics, it's about gaining maturity and focus, having fun, setting and achieving goals, and making lasting friendships.

It's a portal to our future.

As we move on to high school and other endeavours, I see something bright, energetic and successful. It is us, the class of 2000, the leaders and workers of tomorrow. Optimism abounds. Yet there is a certain sadness in our hearts, I think. We are about to close a chapter of our lives. We cannot have these three years back. They are gone. We must treasure them forever in our memories.

Most importantly, though, they have helped us build a foundation for the future, as we strive to be decent human beings in an ever-changing world.

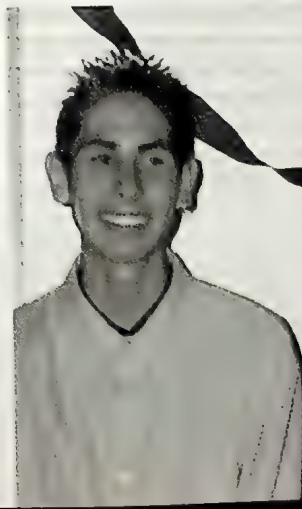

Education is important, it's essential to our success and happiness, but it's not the only thing in our lives. Living a full life is everything, and the teachers and staff at Highlands, through their dedication and hard work, have shown us that. They have set the example—the right example, and for that, we, the class of 2000, thank you.

It has been a fast ride. Three years have gone by in a flash. But, for now, it is a time to celebrate. Our time, our moment in the spotlight. So let's have a good time. Kick off our shoes and dance the night away.

Thank you and good evening.  
Let's Party!!!
